

To Whom it May Concern:

On behalf of Positive Athlete, I wanted to take the time to write this letter of recommendation on behalf of Ayden Griswold, one of the high school student-athletes we selected as the "Most Positive Athlete in their Sport" in the East Atlanta Region here in Georgia in 2020. We receive over 5,000 nominations each year in Georgia alone for Positive Athlete, and the fact that we have selected this student-athlete as a Regional Winner of one of our awards is very significant. Only about seven percent of nominees are recognized in any way by our organization as a regional award winner. What this says is this is a young person worth investing your time in, and that they are someone you can have a great deal of confidence will be an asset to your organization.

This individual has been vetted by not only our organization, but by their school and organizations they have served in order to receive this honor. The best way I can describe them is that they are a high-character, teamwork-oriented leader, who has experienced winning and losing, and has shown a heart for their school and community.

We are so proud to call them a Positive Athlete and part of the Positive Athlete family.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Pederson".
